Write-up on Event (To publish in the college website)	The Department of EEE, AREC,Villupuram. Organized a ONE WEEK FDP on the subject, " Applications of Optimization Techniques" from 13.11.2022 to 18.11.2022.The event commenced from 10a.m – 12p.m, with a welcome speech.. She spoke on different optimization techniques and static field. Delivered keynote on application of PSO in real-time.The participants from various institutions around were participated. Session focuses on foundations of different optimization techniques and their real time applications. After the session the questions were answered by the Speaker. The session was very useful and every one of the participants enjoyed the session Welcome speech and vote of thanks offered by Mr.PM.Kumaresan and Mrs.A.Suganya.

Faculty development program on CONSTRUCTION DIFFICULTIES IN SEA SHORE STRUCTURES

04 AUGUST, 2023

Organized by

DEPARTMENT OF CIVIL ENGINEERING
A.R ENGINEERING COLLEGE

ABOUT THE PROGRAMME:

The study of the construction difficulties in seashore structures lies at the very core of a Civil Engineering background, Fundamentals of Design in construction components brings the subject alive and current. Important areas of many technologies such as machine design, component design in the area of robots, automobiles, aircraft, satellites, tremendous advances and innovations have been made by applying this subject knowledge. This Faculty Development Training Programme on Design of construction difficulties in seashore structures is planned to provide basic concepts with number of sessions on the subject for the teachers employed in colleges affiliated to Anna University, faculty members from IIT, Central, State funded Institutions and People from the industry. This will also enable the faculty members to teach this subject for the Third year civil engineering students effectively.

COURSE CONTENTS:

The course content is as per the Anna University syllabus and includes the following topics:

- Basics of variable & steady stresses in machine members.
- Principle stresses for various load combinations.
- Factors influencing machine design.
- Calculation of principle stresses for various load combinations.
- Design of solid and hollow shafts & Couplings.
- Design of temporary and permanent joints.
- Energy Storing Elements and Engine Components.
- Bearings.

A.R. ENGINEERING COLLEGE VILLUPURAM 605 601

ELIGIBILITY AND SELECTION:

Faculty from Anna University affiliated Engineering colleges are eligible to participate the programme. The intake is limited to 25 and selection is based on first come first serve basis. No TA/DA will be paid to the participants. Hostel accommodation will be provided on request.

PROGRAMME CERTIFICATES:

Participation certificate will be issued to the participants who attend the programme for the entire duration. The certificate will be issued by the Centre for Faculty Development, Anna University, Villupuram-605601.

REGISTRATION:

Filled registration form in the attached format should reach the Coordinators by post on or before 02.05.2023. Alternatively, the participants can send the scanned copy of filled registration form through email.

ACCOMMODATION & TA:

Accommodation will be provided free of cost to all outstation participants. Please inform the same in advance. No TA & DA will be paid.

Write-up on Event

The workshop started with 15 participants from different domain on 04.08.2023 at 10.00 am with welcome address and the introduction of chief guest was given by **Mr.ANANDHAKUMAR.B, HOD - Civil (AREC).** First session was handled by the guest speaker **Mr.C.NAVANEETHA KRISHNAN, Senior Engineer, BURO Engineers I Pvt Ltd and Structural specialization**, he explained about Construction in the coastal areas includes special marine structures. There are various challenges like unduly waves, unexpected sea storms which can affect the strength of marine structures. The studies reveal that corrosion rates in case of old reinforcement steel bars are very high as compared to fresh reinforcement steel bars, which are used as reinforcements in concrete structures.

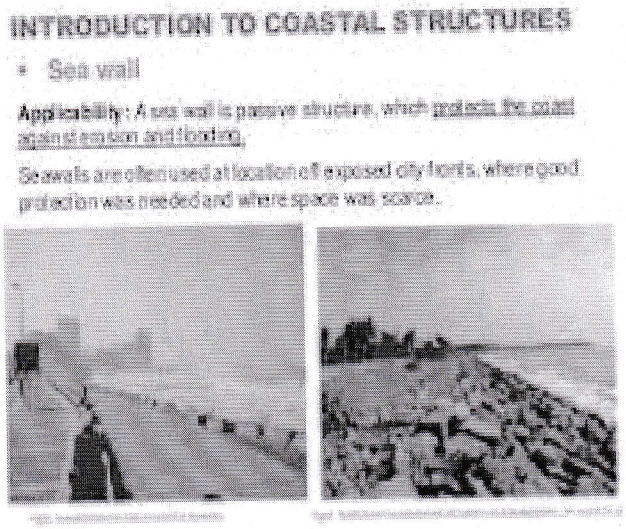

Marine clay is type of clay which is found in the coastal regions around the world, It is sometimes called as the quick clay which is notorious for being involved in the landslides, clay particles can self-assemble into various configurations, each with totally different properties, when clay is deposited in the ocean, the presence of excess ions in sea water causes a loose, open structure of the clay particles to form, this process is well known as flocculation. The speaker has cleared the doubt of the participants at the end of the session. Mrs.S.Suganya –AP/Civil has proposed the vote of thanks to the chief guest.

ABOUT THE PROGRAMME:

The study of the Construction Techniques Equipment and Practice lies at the very core of a Civil Engineering background, Fundamentals of Design in construction components brings the subject alive and current. Important areas of many technologies such as machine design, component design in the area of robots, automobiles, aircraft, satellites, tremendous advances and innovations have been made by applying this subject knowledge. This Faculty Development Training Programme on Construction Techniques Equipment and Practice is planned to provide basic concepts with number of sessions on the subject for the teachers employed in colleges affiliated to Anna University, faculty members from IIT, Central, State funded Institutions and People from the industry. This will also enable the faculty members to teach this subject for the Third year civil engineering students effectively.

COURSE CONTENTS:

The course content is as per the Anna University syllabus and includes the following topics:

- Basics of variable & steady stresses in machine members.
- Principle stresses for various load combinations.
- Factors influencing machine design.
- Calculation of principle stresses for various load combinations.
- Design of solid and hollow shafts & Couplings.
- Design of temporary and permanent joints.
- Energy Storing Elements and Engine Components.
- Bearings.

A.R. ENGINEERING COLLEGE VILLUPURAM 605 601

ELIGIBILITY AND SELECTION:

Faculty from Anna University affiliated Engineering colleges are eligible to participate the programme. The intake is limited to 25 and selection is based on first come first serve basis. No TA/DA will be paid to the participants. Hostel accommodation will be provided on request.

PROGRAMME CERTIFICATES:

Participation certificate will be issued to the participants who attend the programme for the entire duration. The certificate will be issued by the Centre for Faculty Development, Anna University, Villupuram-605601.

REGISTRATION:

Filled registration form in the attached format should reach the Coordinators by post on or before 02.05.2023. Alternatively, the participants can send the scanned copy of filled registration form through email.

ACCOMMODATION & TA:

Accommodation will be provided free of cost to all outstation participants. Please inform the same in advance. No TA & DA will be paid.

Write-up on Event

The FDP started with 40 participants from different domain on 06.11.2022 at 10.00 am with welcom address and the introduction of chief guest was given by Dr.R.Ravi, HOD - Civil (AREC).

First to Fourth was handled by the guest speaker Dr.P.Shanmugapriya.,M.E.,Phd Professor, Srikrishn Engineering College, Coimbatore. The speaker has explained in detail about the Elements of Concret Technology and Fresh and harden concrete testes on site and laboratory, Applications of construction materials i site and properties of construction materials

Fifth to Eight session was handled by the guest speaker Mr. Muthukumar.S Associate Professor, NP

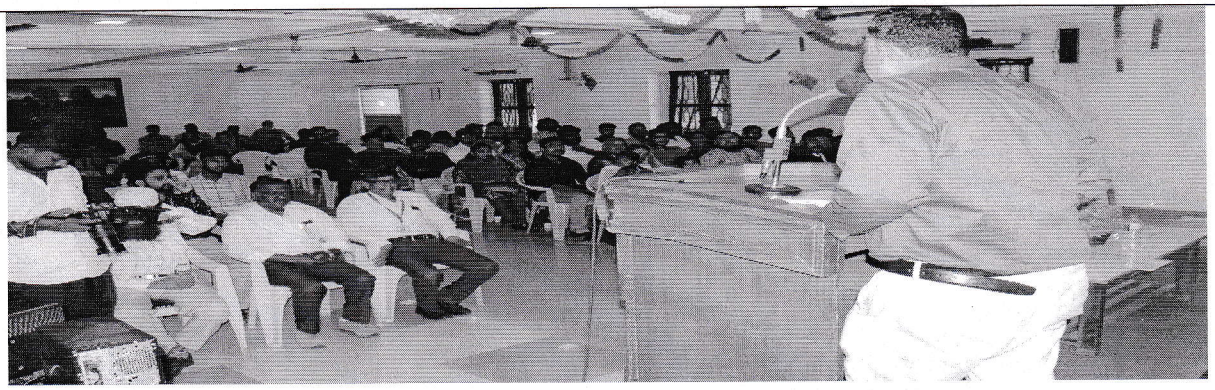

A.R.ENGINEERING COLLEGE
VADAKUCHIPALAYAM,
KAPPIYAMPULIYUR POST,
VILLUPURAM-605 601.

College of Engineering and Technology, Dindigul. The speaker has explained in detail about the Constructio materials and Practices, Sub structure Construction and its methods.

Ninth to Twelfth was handled by the guest speaker MrS.Arunxavier.,Assistant professor, Mohamed Satha A.J College of Engineering, Chennai. The speaker has explained in detail about the Design Super Structur Construction and Construction Elements, Equipments n field and its Application..

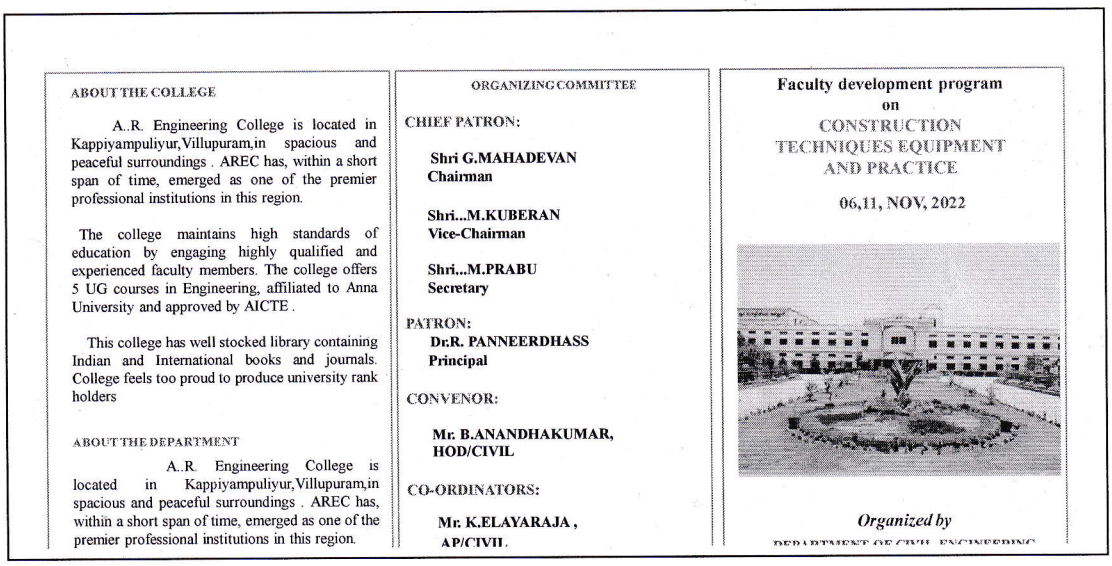

The speaker has cleared the doubt of the participants at the end of the session. Mrs.S.Suganya –AP/Civil ha proposed the vote of thanks to the chief guest.

ABOUT THE PROGRAMME:

The study of the Construction Techniques Equipment and Practice lies at the very core of a Civil Engineering background, Fundamentals of Design in construction components brings the subject alive and current. Important areas of many technologies such as machine design, component design in the area of robots, automobiles, aircraft, satellites, tremendous advances and innovations have been made by applying this subject knowledge. This Faculty Development Training Programme on Construction Techniques Equipment and Practice is planned to provide basic concepts with number of sessions on the subject for the teachers employed in colleges affiliated to Anna University, faculty members from IIT, Central, State funded Institutions and People from the industry. This will also enable the faculty members to teach this subject for the Third year civil engineering students effectively.

COURSE CONTENTS:

The course content is as per the Anna University syllabus and includes the following topics:

- Basics of variable & steady stresses in machine members.
- Principle stresses for various load combinations.
- Factors influencing machine design.
- Calculation of principle stresses for various load

ELIGIBILITY AND SELECTION:

Faculty from Anna University affiliated Engineering colleges are eligible to participate the programme. The intake is limited to 25 and selection is based on first come first serve basis. No TA/DA will be paid to the participants. Hostel accommodation will be provided on request.

PROGRAMME CERTIFICATES:

Participation certificate will be issued to the participants who attend the programme for the entire duration. The certificate will be issued by the Centre for Faculty Development, Anna University, Villupuram-605601.

REGISTRATION:

Filled registration form in the attached format should reach the Coordinators by post on or before 02.05.2023. Alternatively, the participants can send the scanned copy of filled registration form through email.

Write-up on Event (to publish in the college website)	A One Week Faculty Development Program on "Design of Machine Elements" was organized from 07" May 2023 to 12" May 2023 by the Department of Mechanical Engineering with Mr.S.Ramamoorthy as the Coordinators of the Program. Around 8 Internal Faculty participants are attended the Faculty Development Program at Seminar Hall, AREC,Villupuram. Day one (07.05.2023) of the FDP started with the Inauguration Function, in which Principal, HOD, Coordinators and other dignitaries presented their views on the importance and objective of conducting the FDP and motivated all the participants to effectively utilize all the sessions and gain practical knowledge.During Day two(08.05.2023), the resource person gave an overview of the Theories of failures in Design of Machine Elements. During Day three(09.05.2023) the resource person gave a brief about Design of shafts and couplings. During Day four (10.05.2023) the resource person gave brief about Design of various types of joints. During Day five(11.05.2023) the resource person talked about the importance of Design of energy storing elements and engine components. It was followed by Valedictory Function and Certificate Distribution.During Day Six(12.05.2023) the resource person talked about the Design of engine components. It was followed by Valedictory Function and Certificate Distribution.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was established in the year 2008 The programme is approved by AICTE New Delhi. The Department has the state-of-art equipment necessary for curricular needs. All the laboratories are fully equipped and etc. This branch of study develops the students ability to apply scientific principles in the design and analysis of mechanical and energy conversion systems. At the outset the students will be able to create innovative ideas to find solution to real world. Problems with new perspective, good practical skills using science and maths concepts.

REPORT ON EVENTS

Department:	Electronics and Communication Engineering	
Type of Event:	FDP	
Event Title:	Network simulator - 2	
Date & Time:	20.11.2022 to 22.11 2022 & 9.00 AM -3.00 PM	
Venue / Mode(Platform):	Networks LAB	
Organizer:	Mr.P.SARAVANAN,AP/ECE	
Coordinator(s):	Ms.N.SAVITHA, AP/ECE	
Details of Participants:	External participants from various institution – Faculty members, Industry & faculty members of AREC .During the session - 30 participants actively participated.	
Profile of the Chief Guest(s)	Name of the Guest Speaker:	Dr. G. Sankara Malliga
	Organization:	AIHT, Chennai
	Designation:	Prof &Head
	Contact Number:	9865639918
	E-Mail ID:	
Write-up on Event (to publish in the college website)	Day 1- She started with explaining basics about the network simulator NS-2 –. This is used to analyze the performance of all kinds of networks. It is a time driven simulator; it works with the linux system files. It consists of in built protocols which is constructed with the language C++ .The network infrastructure can be constructed with the use of language TCL. Inaugurated By Dr.R.PANNEERDHASS, Principal, AREC .Welcome address is given By Ms.N.SAVITHA, AP/ ECE and vote of thanks delivered by Mrs. R.NISHA ,AP/ ECE

Faculty development program on SOFTWARE TESTING AND MODELLING

07-12 Feb, 2023

Organized by

DEPARTMENT OF MECHANICAL ENGINEERING
A.R ENGINEERING COLLEGE

ABOUT THE PROGRAMME:

The study of the Software Testing And Model linglies at the very core of a Coumpeter Science Engineering background, Fundamentals of Design in Machine components brings the subject alive and current. Important areas of many technologies such as machine design, component design in the area of robots, automobiles, aircraft, satellites, tremendous advances and innovations have been made by applying this subject knowledge. This Faculty Development Training Programme on Software Testing And Model is planned to provide basic concepts with number of sessions on the subject for the teachers employed in colleges affiliated to Anna University, faculty members from IIT, Central, State funded Institutions and People from the industry. This will also enable the faculty members to teach this subject for the Third year mechanical engineering students effectively.

COURSE CONTENTS:

The course content is as per the Anna University syllabus and includes the following topics:

- Basics of variable & steady stresses in machine members.
- Principle stresses for various load combinations.
- Factors influencing machine design.
- Calculation of principle stresses for various load combinations.
- Design of solid and hollow shafts & Couplings.
- Design of temporary and permanent joints.
- Energy Storing Elements and Engine Components.
- Bearings.

ELIGIBILITY AND SELECTION:

Faculty from Anna University affiliated Engineering colleges are eligible to participate the programme. The intake is limited to 25 and selection is based on first come first serve basis. No TA/DA will be paid to the participants. Hostel accommodation will be provided on request.

PROGRAMME CERTIFICATES:

Participation certificate will be issued to the participants who attend the programme for the entire duration. The certificate will be issued by the Centre for Faculty Development, Anna University, Villupuram-605601.

REGISTRATION:

Filled registration form in the attached format should reach the Coordinators by post on or before 02.02.2023. Alternatively, the participants can send the scanned copy of filled registration form through email.

ACCOMMODATION & TA:

Accommodation will be provided free of cost to all outstation participants. Please inform the same in advance. No TA & DA will be paid.

Write-up on Event (to publish in the college website)	The FDP started with 18 participants from different institutions on 14.09.2016 at 10.00 am with welcome address and introduction of chief guest Manikandan G,Prof, Department of CSC and Chief guest was introduced by Mrs.Subapriya AP/CSE, AREC A one week FDP on "Software Modelling using Case Tools" was organized by department of CSE and IT associated with Sparx Systems-India from 07.02.23 & 12.02.23. The program was handled by Mr. S. Mohamed Fakkrudin, Vice president, Operations & Delivery,Sparx Systems,India. He explained the modelling tool Enterprise Architect. The program content went on like this, starting with how to create a model and the components of a system. The creation of usecases has been discussed and created an activity diagram based on the requirements of usecases. With help of developed class diagrams code has been generated which acts as a prototype for the original software to be developed. Automated report generation has been discussed. Thus, the EA tool creates a wide job opportunity to young engineers.

Write-up on Event (To publish in the college website)	The Department of EEE, AREC, Villupuram. Organized a one day workshop on the subject, "Space Vector Modulation For 3 Phase Inverter" on 24.10.2022 .The event commenced from 10a.m – 12p.m, with a welcome speech by Mr.P.Karthik. Chief Guest Mr.P.Senthilkumar., Technical Manager,Verizonpvt ltd, shared a wonderful knowledge about the space vector modulation. The participants gained a good Knowledge about the Session. After the session the queries were cleared by the Speaker. Welcome speech and vote of thanks offered by Mr.Udhayakumar,AP/EEE

COMPOSITE MATERIALS

22-23 May, 2023

Organized by

DEPARTMENT OF MECHANICAL ENGINEERING
MOHAMED SATHAK A J COLLEGE OF ENGINEERING

ABOUT WORKSHOP-2023

Composite materials is one of the newest and fastest growing areas in Science and Engineering. The subjects arise from the convergence of Physics, Chemistry and Material Science to create new functional system of Composite materials. It has been cast as the answer to many of world's major environment and health issues. The applications of Composite materials are extremely important and unending, particularly its role in chemical engineering, automobiles, space, healthcare, defense, telecommunication, information technology, energy sectors etc. Currently the advantages of nanotechnology overweigh the potential risks.

The aim of this workshop is to review the current state of knowledge in the field of Composite materials and Nano-technology along with their novel applications and challenges. The workshop will provide a multi-disciplinary view of the various facets of nanoscience and nanotechnology.

The objectives:

- To provide a forum to the faculty, researchers and students to quench their thirst for creativity in frontier areas of Composite materials.
- To present the most recent developments in the field of various composite materials.
- To provide a platform for interdisciplinary communication and intensify collaborations between scientists and industry.
- To assist in public understanding of the social, educational, environmental and economical importance of chemical technology.
- To promote research in emerging and thrust areas of engineering, medicine, food, energy, environment and health care.

PRINCIPAL THEMES:

- Various composite materials and its applications
- Metal Matrix composites,
- Polymer Matrix composites,
- Ceramic Matrix composites
- Computational nanotechnology (modeling and simulation of nanostructures)
- NanoMEMS, Nano-fluids, Nano-sensors.
- Nano manufacturing, reliability, standards, safety and ethical issues
- Fabrication procedures
- Various Applications

REGISTRATION:

Faculty from AICTE approved Institutions and professionals from Industry / Research Scholars / Students can send their registration form along with registration fee on or before 18th May, 2018. The DD should be drawn in favor of '*Principal, Mohamed Sathak College of Engineering* , payable at Indian Bank, siruseri, chennai. The selected participants will be informed by20th May, 2018.

Registration Fee:

Faculty / Industry professionals	:	Rs. 300
Research Scholars / PG Students	:	Rs. 200
UG Students	:	Rs. 100

ACCOMMODATION & TA:

Accommodation will be provided free of cost to all outstation participants. Please inform the same in advance. No TA & DA will be paid.

ANNUAL REPORT (2022 -2023)

ABOUT COLLEGE

It is indeed a great honor and a privilege bestowed on me, to present a brief report on our academic activities of our institution on this occasion.

A.R. Engineering College was established by our Honourable Chairman Mr.G.Mahadevan, in the year 2008. The Institution started functioning with four under graduate courses in Computer Science & Engineering, Electrical & Electronics Engineering, Electronics & Communication Engineering and Information Technology. In the year 2009-10, we started Mechanical Engineering course and In the next academic year, we introduced Civil Engineering course andunder graduate courses in Artificial Intelligence and Data Science Engineering was started in the year 2022, we have got an approval from AICTE, New Delhi.

INFRA STRUCTURE

The college is spread over an area of 15 acres with a total built up area of 13,389 m^2 and state-of-art laboratories. Every year the library is strengthened by adding required number of books, National and International journals. We have a computerized library with text books and reference books. We have boys' hostel in the campus with a built up area of 561.44 m^2 to accommodate 100 inmates. The institution is also having a girls' hostel to accommodate 100 inmates.

ACADEMIC ACHIEVEMENTS

Let's have a quick look on some of the achievements of our faculty members in the last academic year.

DEPARTMENT OF CIVIL ENGINEERING:

Civil Engineering is field of engineering sciences, related to Design, Construction and Maintenance of buildings, dams, bridges, tunnels, highways and other structures by the use of Physical Laws, Mathematical Equations and Theories of Mechanics. Civil Engineers utilize the available resources (expertise, materials, manpower) to complete the project in the given time span keeping in view the time, expenditure, environmental issues and physical hazards of the project.

Mr.A.Vinoth AP/CIVIL has attended Fourth International conference on Recent trends in microbiology (RTM-2023).

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Computer Science and engineering Department has been running successfully 8 years and has also been accredited by AICTE, New Delhi. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty those are specialized in areas like Cryptography and Network Security, Multimedia Communications, Wireless Networking, Computing, Data Mining etc..

Our Department provides high quality learning environment, in terms of inspiring teachers, State-of-the-art facilities, sharing experience, widening the knowledge horizon, interacting with experts from academic and industry and facilitating the student in the process of growth in the computer field. The Department aims to inculcate profound knowledge and skill in the areas of Computer Hardware and Software Developments. We have excellent lab facilities. Students are always given the best opportunities for independent thinking, which will help them in utilizing their potential creativity. The Department has totally 3 Hi-tech Laboratories housing everything from P-IV Systems with 1GB RAM to Computer based on Intel's latest Core 2 duo Processor with 2 GB RAM. The Client machines are connected to various servers from HCL & HP powered by Intel's latest Xeon Processor. Some of the other facilities available are internet through a 10 Mbps leased line and industry standard licensed software.

DEPARTMENT OF ARTIFICIAL INTERLLIGENCE AND DATA SCIENCE ENGINEERING:

The Department of Artificial Intelligence and Data Science Engineering was started in the year 2022. The Department offers a 4-Year full time B. Engg programme in Artificial Intelligence and Data Science Engineering and it has a team of well-qualified faculty members with rich industrial and academic experience. The broad professional experience of the faculty members bring a flavor and strength to research and development activities of the department. ICT enhanced teaching techniques are also used in the department to supplement the regular chalk and talk lectures. The Engineering curriculum envisages five elective courses in addition to the courses on basic science, humanities, basic engineering and core Artificial Intelligence and Data Science Engineering.

The basic objectives of this course is to train students with the next age of intelligence and analytics generated by machines, influencing the human lives to help improve efficiencies and augment human capabilities, influencing consumer products with significant breakthroughs in healthcare, manufacturing, finance and retail industry, will embark on a journey that explores the fascinating realm of cutting-edge AI technologies that are reshaping industries, revolutionizing decision-making, and transforming the way we interact with data/information.

The prescribed core courses cover important and exciting areas of Artificial Intelligence and Data Science Engineering including Artificial Intelligence and Data Science. As a part of the curriculum, the students are also given the best possible training in the Advanced Data Science and Artificial Intelligence Tools that are widely used in Companies.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING:

Global excellence in teaching, research and technology development is the main concern of the department. It has renowned as well as young and dynamic personalities as faculties and involved in providing quality education at undergraduate (UG) level.

STAFF DETAILS:

Mr.P.Saravanan AP/ECE has attended International webinar on Advanced materials for fifth generation (5G) wireless communication technology.

Mrs.R.Nisha AP/ECE has attended IETE knowledge sharing session (kss)-79: Webinar 111 on Cyber Security challenges and methods of mitigation.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING:

Electrical and Electronics Engineering was established in the year 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. The Electrical and Electronics Engineering programme is duly approved by the AICTE and affiliated to ANNA University, Chennai. The Electrical and Electronics Engineering department strongly believes in working towards a goal which is not merely theoretical in content but practical in approach. The laboratories are highly modernized to reflect the rapidly changing trends in technology. The department has excellent infrastructure and is currently served by a team of well qualified, experienced and dedicated faculties whose specialization spans around major areas in Electrical and Electronics Engineering. The faculty and students have publications in the reputed National and International Journals

Mechanical Engineering recently started in the year 2009 and offer B.E Mechanical engineering .There are nine Laboratory namely CAD CAM Lab, Thermal engg lab ,Heat transfer Lab, Manufacturing Technology Lab ,Fluid Mechanics and Machinery Lab, General Workshop, Metrology and measurement Lab, Dynamics Lab, Strength of materials lab, Mechatronics lab, are well established with in short period of time.

The Department has a team of dedicated, well qualified and experienced faculty which includes three professors To provide in depth knowledge and training in the field of Mechanical engineering covering energy, thermal, design, manufacturing, industrial management, and to expose to the latest research, development and techniques so as to cater to the growing needs of the Industries and to mould the students. The department offers an under graduate program B.E.(Mechanical Engineering) . The thermal engineering program has its versatile opportunities to work in areas of thermal design, power plants, oil and gas company, HVAC, thermal management of buildings and in multidisciplinary area, thermal management of electronics, thermal engineers decides the length and breadth of electronic component sizes.

STAFF DETAILS:

Mr.D.Manikandan, AP/Mech, has attended Online workshop on Innovative applications in Robotic process automation using UiPath.

DEPARTMENT OF SCIENCE & HUMANITIES:

Mrs.V.Girija AP/S&H has attended IETE knowledge sharing session (kss)-77: Webinar 109 on earning to be emotionally Intelligent.

For the betterment of faculty around 103 faculty members were participate in FDP organized by various institute of repute and 11 programs were organized internally for the betterment of technical teaching staff and non teaching staff. Technology has to be constantly upgraded to keep pace with the desired improvements in academic quality.

Once again on behalf of the management, myself and faculty members I wish you all a successful and bright future ahead.

ABOUT THE COLLEGE

A..R. Engineering College is located in Kappiyampuliyur,VillupuramI,in spacious and peaceful surroundings . AREC has, within a short span of time, emerged as one of the premier professional institutions in this region.

The college maintains high standards of education by engaging highly qualified and experienced faculty members. The college offers 5 UG courses in Engineering, affiliated to Anna University and approved by AICTE .

This college has well stocked library containing Indian and International books and journals. College feels too proud to produce university rank holders.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was established in the year 2008 The programme is approved by AICTE New Delhi. The Department has the state-of-art equipment necessary for curricular needs. All the laboratories are fully equipped and etc. This branch of study develops the students ability to apply scientific principles in the design and analysis of mechanical and energy conversion systems. At the outset the students will be able to create innovative ideas to find solution to real world Problems with new perspective, good practical skills using science and maths concepts.

Two-Day Workshop
on
Advanced Materials and application

20-21 September, 2021

Organized by

DEPARTMENT OF MECHANICAL ENGINEERING
A.R. ENGINEERING COLLEGE

ABOUT

Nanotechnology is one of the newest and fastest growing areas in Science and Engineering. The subjects arise from the convergence of Electronics, Physics, Chemistry and Material Science to create new functional system of Nano scale dimensions. It has been cast as the answer to many of world's major environment and health issues. The applications of nanotechnology are extremely important and unending, particularly its role in chemical engineering, automobiles, space, healthcare, defense, telecommunication, information technology, energy sectors etc. Currently the advantages of nanotechnology overweigh the potential risks.

The aim of this workshop is to review the current state of knowledge in the field of nanoscience and technology along with their novel applications and challenges. The workshop will provide a multi-disciplinary view of the various facets of nanoscience and nanotechnology.

The objectives:

- To provide a forum to the faculty, researchers and students to quench their thirst for creativity in frontier areas of nanoscience and technology.
- To present the most recent developments in the field of nanoscience and technology.
- To provide a platform for interdisciplinary communication and intensify collaborations between scientists and industry.
- To assist in public understanding of the social, educational, environmental and economical importance of chemical nanotechnology.
- To promote research in emerging and thrust areas of engineering, medicine, food, energy, environment and health care.

PRINCIPAL THEMES:

- Nanotechnology and its applications
- Nanomaterials for improved use of resources
- Nano structures and devices
- Nano-membranes, Nano- porus & electrochemical materials
- Nanofabrication, nanolithography, nanomanipulation
- Nanoscale characterization, nano imaging
- Computational nanotechnology (modeling and simulation of nanostructures)
- NanoMEMS, Nano-fluids, Nano-sensors.
- Nano manufacturing, reliability, standards, safety and ethical issues

REGISTRATION:

Faculty from AICTE approved Institutions and professionals from Industry / Research Scholars / Students can send their registration form along with registration fee on or before 14th September, 2021. The DD should be drawn in favor of '*Principal, A.R. Engineering College* , payable at Indian Bank,Koliyanoor ,Villupuram. The selected participants will be informed by16th September, 2021.

Write-up on Event

Department of Mechanical organized two days' workshop on "Advanced Materials and Application" on 20/09/2021 to 21/09/2021.

The program was started at 9.30 am, with a welcome address by Mr.R.Sivakumar Asst .Prof/Mech & Head – AREC and Introduction to the Chief guest by, Mr.S.Ramamoorthy, Asst.Prof/Mech -AREC.

Day-1:The Chief guest Dr.S.S.M.Abdul Majeed, deliver his speech with a presentation about the objective of the workshop is to provide in-depth knowledge of advanced materials, their fundamental characteristics, synthesis, characterization and applications in the advancement of science and technology in different domain.

Day-1:The Chief guest Dr.B.S Abdur Rahman He explained in detail about the Free vibration. During the discussion session, he meticulously elaborated in detail for the participants questions.

At the end of the session Mr.D.Manikandan, Asst.Prof/Mech –AREC delivers the vote of thanks.

ABOUT THE COLLEGE

A.R. Engineering College is located in Kappiyampuliyur, Villupuram,in spacious and peaceful surroundings . AREC has, within a short span of time, emerged as one of the premier professional institutions in this region.

The college maintains high standards of education by engaging highly qualified and experienced faculty members. The college offers 5 UG courses in Engineering, affiliated to Anna University and approved by AICTE.

This college has well stocked library containing Indian and International books and journals. College feels too proud to produce university rank holders.

ABOUT THE DEPARTMENT

The Department of Mechanical Engineering was established in the year 2008 The programme is approved by AICTE New Delhi. The Department has the state-of-art equipment necessary for curricular needs. All the laboratories are fully equipped and etc. This branch of study develops the students ability to apply scientific principles in the design and analysis of mechanical and energy conversion systems. At the outset the students will be able to create innovative ideas to find solution to real world. Problems with new perspective, good practical skills using science and maths concepts.

FDP is to provide in-depth knowledge of Microcontroller, their fundamental characteristics, synthesis characterization and applications in the advancement of science and technology in different domain.

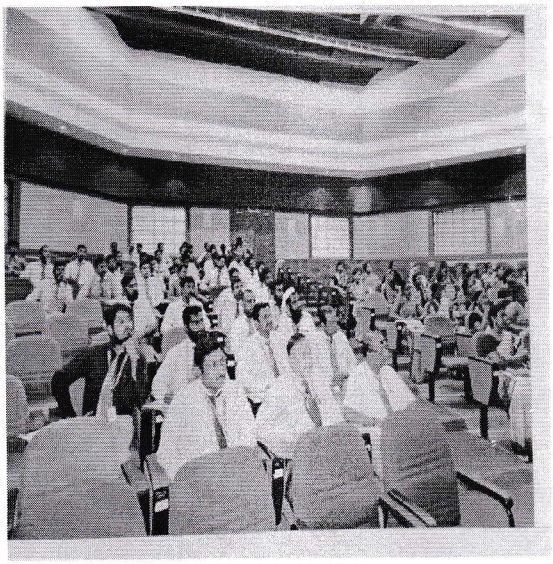

Day-3:The Chief guest Dr.M.N.Masoodhu Banu .She explained in detail about the Free vibration During the discussion session, he meticulously elaborated in detail for the participants questions.

Day-5:The Chief guest Mr.N.Saravanakumar,He explained advanced techniques in system desig used in microcontroller,also explained in future techniques in system design.

At the end of the session Ms.N.Savitha, Asst.Prof/ECE –AREC delivers the vote of thanks.

	 ABOUT THE COLLEGE A.R. Engineering College is located in Kappiyampuliyur,Villupuram,in spacious and peaceful surroundings . AREC has, within a short span of time, emerged as one of the premier professional institutions in this region. The college maintains high standards of education by engaging highly qualified and experienced faculty members. The college offers 5 UG courses in Engineering, affiliated to Anna University and approved by AICTE . This college has well stocked library containing Indian and International books and journals. College feels too proud to produce university rank holders. ABOUT THE DEPARTMENT The Department of Mechanical Engineering was established in the year 2008 .The programme is approved by AICTE New Delhi. The Department has the state-of-art equipment necessary for curricular needs .All the laboratories are fully equipped and etc. This branch of study develops the students ability to apply scientific principles in the design and analysis of mechanical and energy conversion systems. At the outset the students will be able to create innovative ideas to find solution to real world Problems with new perspective, good practical skills using science and maths concepts. ABOUT THE COLLEGE

A.R.Engineering college is an emerging institute of excellence in Engineering Education located on the Vadakuchipalayam, Kappiyampuliyur (PO), Vikaravandi (TK), Villupuram (DT), Tamilnadu – 605601. The college is run by the Sri Venkatachalapathy Educational Trust which has been in the field of education for more than a decade. The college is approved by the AICTE, New Delhi and is affiliated to the largest Technical University, Anna University, Chennai.

ABOUT THE DEPARTMENT

Civil Engineering was started in the year 2012 with the approval of AICTE. The department's primary goal is to focus on imparting the best possible exposure to various fields in civil engineering. The department is established with well-equipped laboratories, with all the modern amenities & excellent setup. As per AICTE norms, well qualified & experienced faculties are recruited. Academicians from premier institutions and field engineers are frequently invited to interact with students and faculty for updating their knowledge with the latest global developments. Department will also be engaged in organizing co-curricular activities like seminars, expert talks, aptitude tests, quiz, field visits, career counseling, etc in order to provide and develop the inter-personal skills of the students.

ABOUT WORKSHOP-2021

Preventive measures of water pollution in water distribution mainsis one of the newest and fastest growing areas in Science and Engineering. The subjects arise from the convergence of Physics, Chemistry and Material Science to create new functional system of Composite materials. It has been cast as the answer to many of world's major environment and health issues. The applications of Composite materials are extremely important and unending, particularly its role in chemical engineering, automobiles, space, healthcare, defense, telecommunication, information technology, energy sectors etc. Currently the advantages of nanotechnology overweigh the potential risks.

The aim of this workshop is to review the current state of knowledge in the field of Composite materials and Nano-technology along with their novel applications and challenges. The workshop will provide a multi-disciplinary view of the various facets of nanoscience and nanotechnology.

The objectives:

- To provide a forum to the faculty, researchers and students to quench their thirst for creativity in frontier areas of Composite materials.
- To present the most recent developments in the field of various composite materials.
- To provide a platform for interdisciplinary communication and intensify collaborations between scientists and industry.
- To assist in public understanding of the social, educational, environmental and economical importance of chemical technology.
- To promote research in emerging and thrust areas of engineering, medicine, food, energy, environment and health care.

PRINCIPAL THEMES:

- Various composite materials and its applications
- Metal Matrix composites,
- Polymer Matrix composites,
- Ceramic Matrix composites
- Computational nanotechnology (modeling and simulation of nanostructures)
- NanoMEMS, Nano-fluids, Nano-sensors.
- Nano manufacturing, reliability, standards, safety and ethical issues
- Fabrication procedures
- Various Applications

REGISTRATION:

Faculty from AICTE approved Institutions and professionals from Industry / Research Scholars / Students can send their registration form along with registration fee on or before 18th May, 2018. The DD should be drawn in favor of '*Principal, Mohamed Sathak College of Engineering* , payable at Indian Bank, siruseri, chennai. The selected participants will be informed by20th May, 2018.

Registration Fee:

Faculty / Industry professionals	:	Rs.300
Research Scholars / PG Students	:	Rs.200
UG Students	:	Rs.100

ACCOMMODATION & TA:

Accommodation will be provided free of cost to all outstation participants. Please inform the same in advance. No TA & DA will be paid.

Write-up on Event

The workshop started with 13 participants from different domain on 25.01.2017 at 10.30 am with welcome address and the introduction of chief guest was given by Dr.B.Anandhakumar, HOD - Civil (AREC).

First session was handled by the guest speaker Dr Elliss Yogesh., Senior Engineer, Vegan Creative Engineering and Water resources specialization, he explained about Water pollution and environmental issues seen nowadays.

Water is contaminated with harmful substances like chemicals, garbage and other foreign particles. It directly or indirectly pollutes water bodies such as ponds, lakes, rivers, sea and oceans and as a result affects the life of plants and organisms living in these water bodies as well. Polluted water is neither safe for drinking and for other consumption processes nor suitable for agricultural and industrial purposes. With the modernization in the society and advancement in technology, knowingly or unknowingly all are polluting surrounding environment and no more cares are given for natural resources and are poising great risk to our health too. And with the water scarcity, it has become crucial to take a step to use the natural resources in their safest form. He also explained about transmission or trunk mains usually convey large amounts of water over long distances such as from a treatment facility to a storage tank within the

	distribution system. Distribution mains are typically smaller in diameter than the transmission mains and generally follow the city streets. He explained about the preventive measures to protect water from pollution such as avoiding the usage of plastics, chemicals and scientific method of waste disposal, etc. The speaker has cleared the doubt of the participants at the end of the session. Ms. S. Kaveri–AP/Civil has proposed the vote of thanks to the chief guest.

ANNUAL REPORT (2021 -2022)

ABOUT COLLEGE

It is indeed a great honor and a privilege bestowed on me, to present a brief report on our academic activities of our institution on this occasion.

A.R. Engineering College was established by our Honourable Chairman Mr.G.Mahadevan, in the year 2008. The Institution started functioning with four under graduate courses in Computer Science & Engineering, Electrical & Electronics Engineering, Electronics & Communication Engineering and Information Technology. In the year 2009-10, we started Mechanical Engineering course and In the next academic year, we introduced Civil Engineering course.

INFRA STRUCTURE

The college is spread over an area of 15 acres with a total built up area of 13,389 m^2 and state-of-art laboratories. Every year the library is strengthened by adding required number of books, National and International journals. We have a computerized library with text books and reference books.We have boys' hostel in the campus with a built up area of 561.44 m^2 to accommodate 100 inmates. The institution is also having a girls' hostel to accommodate 100 inmates.

ACADEMIC ACHIEVEMENTS

Let's have a quick look on some of the achievements of our faculty members in the last academic year.

DEPARTMENT OF CIVIL ENGINEERING:

Civil Engineering is field of engineering sciences, related to Design, Construction and Maintenance of buildings, dams, bridges, tunnels, highways and other structures by the use of Physical Laws, Mathematical Equations and Theories of Mechanics. Civil Engineers utilize the available resources (expertise, materials, manpower) to complete the project in the given time span keeping in view the time, expenditure, environmental issues and physical hazards of the project.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Computer Science and engineering Department has been running successfully 8 years and has also been accredited by AICTE, New Delhi. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty those are specialized in areas like Cryptography and Network Security, Multimedia Communications, Wireless Networking, Computing, Data Mining etc..

Our Department provides high quality learning environment, in terms of inspiring teachers, State-of-the-art facilities, sharing experience, widening the knowledge horizon, interacting with experts from academic and industry and facilitating the student in the process of growth in the computer field. The Department aims to inculcate profound knowledge and skill in the areas of Computer Hardware and Software Developments. We have excellent lab facilities. Students are always given the best opportunities for independent thinking, which will help them in utilizing their potential creativity. The Department has totally 3 Hi-tech Laboratories housing everything from P-IV Systems with 1GB RAM to Computer based on Intel's latest Core 2 duo Processor with 2 GB RAM. The Client machines are connected to various servers from HCL & HP powered by Intel's latest Xeon Processor. Some of the other facilities available are internet through a 10 Mbps leased line and industry standard licensed software.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING:

Electrical and Electronics Engineering was established in the year 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. The Electrical and Electronics Engineering programme is duly approved by the AICTE and affiliated to ANNA University, Chennai. The Electrical and Electronics Engineering department strongly believes in working towards a goal which is not merely theoretical in content but practical in approach. The laboratories are highly modernized to reflect the rapidly changing trends in technology. The department has excellent infrastructure and is currently served by a team of well qualified, experienced and dedicated faculties whose specialization spans around major areas in Electrical and Electronics Engineering. The faculty and students have publications in the reputed National and International Journals

The Department has a team of dedicated, well qualified and experienced faculty which includes three professors To provide in depth knowledge and training in the field of Mechanical engineering covering energy, thermal, design, manufacturing, industrial management, and to expose to the latest research, development and techniques so as to cater to the growing needs of the Industries and to mould the students. The department offers an under graduate program B.E.(Mechanical Engineering) . The thermal engineering program has its versatile opportunities to work in areas of thermal design, power plants, oil and gas company, HVAC, thermal management of buildings and in multidisciplinary area, thermal management of electronics, thermal engineers decides the length and breadth of electronic component sizes.

Write-up on Event	The Department of Computer Science Engineering, AREC,Villupuram. Organized a Three days FDP on the topic, "Computer Architecture" from 21.12.2020 to 23.12.2020 through online mode (Google meet). The program Commenced at 10 AM-12 PM, with a welcome speech and opening speech of the Chief guest Mrs.P.Suganya. Dr.Ben Sujitha, Professor, Jeppiar College of Engineering, Chennai. The speaker elaborated in detail about,***Computer Architecture***. During the session she explained various concepts in Computer Architecture to make the participants understand clearly. In the discussion time with the participants, she answered all the questions patiently up to the participants' satisfaction. Mrs.C.Jeya Lakshmi, Assistant Professor, Mohamed Sathak Engineering College, Kilakarai.She explained in detail about Hazards and Pipelining concepts. During the discussion session, she meticulously elaborated in detail for the participants' questions. Mr.Mohamed Uveise S A, Assistant Professor Mohamed Sathak Engineering College, Kilakarai. The speaker elaborated in detail about,*Memory management in Computer Architecture*. In the discussion time with the participants, he answered all the questions patiently up to the participants' satisfaction. The Faculties from different colleges around TamilNadu participated during the session 150 participants energetically participated. At the end of the session Mrs. S.Devika, Asst.Prof/CSE- AREC gave the vote of thanks.

Write-up on Event (to publish in the college website)

The FDP started with 75 participants from different domain on 18.12.2020 at 10.30 am with welcome address a introduction of chief guest by Mr.B.Anandhakumar, HOD - Civil (AREC).

First session was handled by the guest speaker Mr.M.Ilayaraja., M.E,PhD., Associate Professor, Mohame Sathak Engineering College, Kilakarai. The speaker has explained in detail about the **CONSTITUEN MATERIALS** and Different types of Cement , Chemical composition and Properties,Hydration of cement,Tes on cement, IS Specifications, Aggregates, Classification, Mechanical properties and tests as per BIS, Gradi requirements, Water, Quality of water for use in concrete.. The speaker has cleared the doubt of the participants the end of the session.

Second & Third session was handled by the guest speaker Dr. GOPIKUMAR. S.., M.E.., Assista professor, SCAD College of Engineering and Technology, Tirunelveli. The speaker has explained in deta about the **CHEMICAL AND MINERAL ADMIXTURES** and Accelerators, Retarders,Plasticizers, Sup plasticizers ,Water proofers ,Mineral Admixtures like Fly Ash, Silica Fume, Ground Granulated Blast Furnace Sla and Metakaoline, Effects on concrete properties, **SPECIAL CONCRETES &** Light weight concretes,foa concrete, self compacting concrete, vacuum concrete, High strength concrete, Fibre reinforced concret Ferrocement, Ready mix concrete, SIFCON, Shotcrete, Polymer concrete,High performance concrete , Geopolym Concrete. The speaker has cleared the doubt of the participants at the end of the session.

Fourth & Fifth session was handled by the guest speaker Mr.B.Rizha Ur Rahman., M.E., Assista professor, Mohamed Sathak A.J College of Engineering, Chennai. The speaker has explained in detail abo the **PROPORTIONING OF CONCRETE MIX** and Principles of Mix Proportioning, Properties of concre related to Mix Design, Physical properties of materials required for Mix Design, Design Mix and Nominal Mi BIS Method of Mix Design, Mix Design Examples, **FRESH AND HARDENED PROPERTIES O CONCRETE** and Workability, Tests for workability of concrete, Segregation and Bleeding, Determination strength Properties of Hardened concrete, Compressive strength, split tensile strength, Flexural strengt Stress,strain curve for concrete, Modulus of elasticity, durability of concrete, water absorption, permeabilit corrosion test, acid resistance.. The speaker has cleared the doubt of the participants at the end of the session.

Ms.S. Kaveri –AP/Civil has proposed the vote of thanks to the chief guest.

Write-up on Event (To publish in the college website)	Registrationlink:https://tinyurl.com/EMF-FDP The Department of ECE, AREC,Villupuram. Organized a three day FDP on the subject, "Electromagnetic Fields" from 29-12-2020 to 31-12-2020 employing online approach (Google meet) (Google meet). The event commenced from 10a.m – 12p.m, with a welcome speech. Day-1, Dr. R. Seetha Raman, Department of Electronics and Communication Engineering, College of Engineering Guindy, Anna University, Chennai. He provided his presentation on coordinative system in EMF. Day-2, Dr. Sabitha Gauni, Dept. of ECE, Associate Professor, SRM Institute of Science and Technology. She spoke on law's and wave equation and static field. Day-3, Mr. T. Jayanandan, Tesla brains, CEO Founder. Delivered keynote on application of EMF in real-time. The participants from various institutions around Tamilnadu participated; throughout the session average of 20+ individuals actively involved. Session focuses on foundations of Electromagnetic fields and their real time applications. After the session the questions were answered by the Speaker. Welcome speech and vote of thanks offered by Mrs.P.Lakshmidevi. E Asst.Prof/ECE Dept.

Details of Participants:	External participants from various institution like Academicians, Researchers, Industry and faculty members of AREC			
Profile of the Chief Guest(s)		**DAY-1 (28.12.2020)**	**DAY-2 (29.12.2020)**	**DAY-3 (30.12.2020)**
	Name of the Guest Speaker	Dr.B.Janarthanan,	Mr.P. Umar Ahamed,	Dr. S. Kathiresan,
	Organization	MSAJCE, Chennai.	MSEC, Ramnad,	**PSVPEC**, Chennai.
	Designation	Hod Research	Asst. Professor	Professor,
Write-up on Event	The FDP started with 40 participants from different domain on 28.12.2020 at 10.00 am with welcome address and introduction of chief guest by Mr.R.ANBAZHAGAN ,HoD/MECH (AREC). The first day 28.12.2020 (Monday) session was handled by the guest speaker Dr.B.Janarthanan, HoD Research in Mohamed Sathak A J College Engineering. The speaker elaborated in detail about various mechanism. In the discussion time with the participants, he answered all the questions patiently up to the participant's satisfaction. The second day 29.12.2020 (Tuesday) session was handled by the guest speaker Mr.P. Umar Ahamed, Asst. Professor, Mohamed Sathak Engineering College .Ramnad. He explained in detail about the various types of Gears and Cam. During the discussion session, he meticulously elaborated in detail for the participants questions. The third day 30.12.2020 (Wednesday) session was handled by the guest speaker Dr. S. Kathiresan, Professor,Prince Shri Venkateshwara Padmavathy Engineering College, Chennai.. He explained in detail about the Friction in Machine Elements. During the discussion session, he elaborated in detail for the participants questions. Mr.S.RAMAMOORTHY, AP/MECH (AREC) proposed the vote of thanks to the chief guest, participants and organizers.

The Department of ECE, AREC,Villupuram. Organized a three day FDP on the subject, "Electromagnetic Fields" from 29-12-2020 to 31-12-2020 employing online approach (Google meet) (Google meet). The event commenced from 10a.m – 12p.m, with a welcome speech. Day-1, Dr. R. Seetha Raman, Department of Electronics and Communication Engineering, College of Engineering Guindy, Anna University, Chennai. He provided his presentation on coordinative system in EMF. Day-2, Dr. Sabitha Gauni, Dept. of ECE, Associate Professor, SRM Institute of Science and Technology. She spoke on law's and wave equation and static field. Day-3, Mr. T. Jayanandan, Tesla brains, CEO Founder. Delivered keynote on application of EMF in real-time. The participants from various institutions around Tamilnadu participated; throughout the session average of 20+ individuals actively involved. Session focuses on foundations of Electromagnetic fields and their real time applications. After the session the questions were answered by the Speaker. Welcome speech and vote of thanks offered by Mrs.P.Lakshmidevi. E Asst.Prof/ECE Dept.

ANNUAL REPORT (2020 -2021)

ABOUT COLLEGE

It is indeed a great honor and a privilege bestowed on me, to present a brief report on our academic activities of our institution on this occasion.

A.R. Engineering College was established by our Honourable Chairman Mr.G.Mahadevan, in the year 2008. The Institution started functioning with four under graduate courses in Computer Science & Engineering, Electrical & Electronics Engineering, Electronics & Communication Engineering and Information Technology. In the year 2009-10, we started Mechanical Engineering course and In the next academic year, we introduced Civil Engineering course.

INFRA STRUCTURE

The college is spread over an area of 15 acres with a total built up area of 13,389 m^2 and state-of-art laboratories. Every year the library is strengthened by adding required number of books, National and International journals.We have boys' hostel in the campus with a built up area of 561.44 m^2 to accommodate 100 inmates. The institution is also having a girls' hostel to accommodate 100 inmates.

ACADEMIC ACHIEVEMENTS

Let's have a quick look on some of the achievements of our faculty members in the last academic year.

DEPARTMENT OF CIVIL ENGINEERING:

Civil Engineering is field of engineering sciences, related to Design, Construction and Maintenance of buildings, dams, bridges, tunnels, highways and other structures by the use of Physical Laws, Mathematical Equations and Theories of Mechanics. Civil Engineers utilize the available resources (expertise, materials, manpower) to complete the project in the given time span keeping in view the time, expenditure, environmental issues and physical hazards of the project.

STAFF DETAILS:

Mr.K.Elayaraja AP/CIVIL has attended International conference on recent Innovation in Engineering science and management(RIESM-19)

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Computer Science and engineering Department has been running successfully 8 years and has also been accredited by AICTE, New Delhi. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty those are specialized in areas like Cryptography and Network Security, Multimedia Communications, Wireless Networking, Computing, Data Mining etc..

Our Department provides high quality learning environment, in terms of inspiring teachers, State-of-the-art facilities, sharing experience, widening the knowledge horizon, interacting with experts from academic and industry and facilitating the student in the process of growth in the computer field. The Department aims to inculcate profound knowledge and skill in the areas of Computer Hardware and Software Developments. We have excellent lab facilities. Students are always given the best opportunities for independent thinking, which will help them in utilizing their potential creativity. The Department has totally 3 Hi-tech Laboratories housing everything from P-IV Systems with 1GB RAM to Computer based on Intel's latest Core 2 duo Processor with 2 GB RAM. The Client machines are connected to various servers from HCL & HP powered by Intel's latest Xeon Processor. Some of the other facilities available are internet through a 10 Mbps leased line and industry standard licensed software.

STAFF DETAILS:

Ms.S.Devika AP/CSE has attended Fifth International conference on renewable energy utilization.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING:

Global excellence in teaching, research and technology development is the main concern of the department. It has renowned as well as young and dynamic personalities as faculties and involved in providing quality education at undergraduate (UG) level.

STAFF DETAILS:

Mrs.P.Lakshmidevi AP/ECE has presented National conference on recent advances in computing and information technologies.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING:

Electrical and Electronics Engineering was established in the year 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. The Electrical and Electronics Engineering programme is duly approved by the AICTE and affiliated to ANNA University, Chennai. The Electrical and Electronics Engineering department strongly believes in working towards a goal which is not merely theoretical in content but practical in approach. The laboratories are highly modernized to reflect the rapidly changing trends in technology. The department has excellent infrastructure and is currently served by a team of well qualified, experienced and dedicated faculties whose specialization spans around major areas in Electrical and Electronics Engineering. The faculty and students have publications in the reputed National and International Journals

STAFF DETAILS:

Ms.G.IndhumathiAP/EEE he has attended Online certification skill development program on design, Implementation and verification in VLSI.

DEPARTMENT OF MECHANICAL ENGINEERING:

Mechanical Engineering recently started in the year 2009 and offer B.E Mechanical engineering .There are nine Laboratory namely CAD CAM Lab, Thermal engg lab ,Heat transfer Lab, Manufacturing Technology Lab ,Fluid Mechanics and Machinery Lab, General Workshop, Metrology and measurement Lab, Dynamics Lab, Strength of materials lab, Mechatronics lab, are well established with in short period of time.

The Department has a team of dedicated, well qualified and experienced faculty which includes three professors To provide in depth knowledge and training in the field of Mechanical engineering covering energy, thermal, design, manufacturing, industrial management, and to expose to the latest research, development and techniques so as to cater to the growing needs of the Industries and to mould the students. The department offers an under graduate

VADAKUCHIPALAYAM,

program B.E.(Mechanical Engineering) . The thermal engineering program has its versatile opportunities to work in areas of thermal design, power plants, oil and gas company, HVAC, thermal management of buildings and in multidisciplinary area, thermal management of electronics, thermal engineers decides the length and breadth of electronic component sizes.

STAFF DETAILS:

Mr.S.Ramamoorthy,AP/Mech, has attended a Webinar on Additive manufacturing application challenges and future scope.

Mr.D.Manikandan, AP/Mech, has attended a AICTE sponsored one week online short term training program on Design of Experiments and Optimization techniques.

DEPARTMENT OF SCIENCE & HUMANITIES:

Mrs.V.Girija AP/S&H has attended Two days online workshop on outcome based education NBA approach.

For the betterment of faculty around 113 faculty members were participate in FDP organized by varoius institute of repute and 09 programs were organized internally for the betterment of technical teaching staff and non teaching staff.Technology has to be constantly upgraded to keep pace with the desired imporements in academic quality.

Once again on behalf of the management, myself and faculty members I wish you all a successful and bright future ahead.

Thanking you

3 Days FDP on

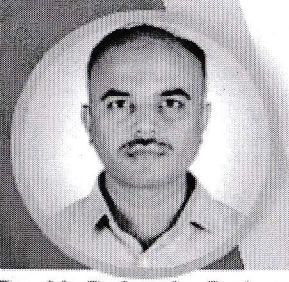

Dynamics of Machines

21st to 23rd May 2020
@ 10AM - 12PM

DAY 1

Dr. P. Jeyaraj
Asso. Prof. NIT Surathkal

DAY 2

Dr. M.C. Lenin Babu
Asso.prof. VIT Chennai

DAY 3

Dr. B. Janarthanan
Professor, MSAJCE

Topics Covered
ME8594 Dynamics of Machines
(Unit II, III & IV)

- To understand the undesirable effects of unbalances resulting from prescribed motions in mechanism.
- To understand the effect of Dynamics of undesirable vibrations.

REPORT ON EVENTS

Electric Vehicle

Department:	Electrical and Electronics Engineering		
Type of Event:	Faculty Development Program		
Event Title:	Electric Vehicle		
Date & Time:	20-05-2020 to 22-05-2020&11:00am to 12:30pm & 02:30pm to 04:00pm		
Venue / Mode (Platform):	Online mode (Google Meet)		
Organizer:	Mr.G.Gnanavel, HOD/EEE		
Coordinator(s):	Mr. B.Rajan, AP/EEE		
Details of Participants:	External participants from various institution like Academicians, Researchers, Industry and faculty members of AREC		
Profile of the Chief Guest(s)		**Day 1 (20.05.2020)**	**Day 2 (21.05.2020) FN**
	Name of the Guest Speaker	Mr. Ashith Kumar Shetty	Dr. Shankar Ramachandran
	Organization	E-Mobility Solutions, Altair Engineering, Bangalore	Ashok Leyland Ltd. Chennai
	Designation	Sr. Technical Manager	Divisional Manager
		Day 2 (21.05.2020) AN	**Day 3 (22.05.2020)**
	Name of the Guest Speaker	Dr. M. M. RajanSingaravel	Dr. T. Thandapani
	Organization	NIT, Puducherry.	RRT Electro Power Ltd, Chennai
	Designation	Assistant Professor	Director
Write-up on Event	The FDP initially started with 40 participants from different domain on 20.05.2020 at 11.00 am with welcome address and introduction of chief guest by Mrs. A.Maheswari, AP/EEE (AREC). REPORT ON EVENTS

Department:	ECE - AREC	
Type of Event:	Faculty Development Program	
Event Title:	**EMBEDDED & IOT BOOT CAMP**	
Date & Time:	27.05.2020 TO 29.05.2020 - 3.00 pm - 5.00 pm	
Venue / Mode(Platform):	Online mode (Google meet)	
Organizer:	DR. KRISHNAMOORTHY K.S HOD/ECE	
Coordinator(s):	1)Ms.P.Malathy AP/ECE	
Details of Participants:	External participants from various institution – Faculty members , Industry & faculty members of AREC	
Profile of the Chief Guest	Name of the Guest Speaker	Mr. M. Prabakaran (Alumni)
	Designation / Organization	Senior Software Architect / Caterpiller
	Contact Number	9791848441
Write-up on Event	The participants started the registration and it was reached up to 55 from the external source (i.e. other than AREC). During the session an average of 35 participants actively participated. Day 1- The session went on with embedded system in Automated Industry with more live examples. Day 2- The session went on with Rasberry-pi,Survellance Robot with more live examples. Day 3- The session went on Embedded C Fundamentals,Programming Embedded Peripherals,How to Handle Interrupts.How to Choose a Language,Inter-task Communication and Synchronization,Memory Management and Other Related Topics. Welcome address about Resource Person is given By Ms.D.Gunavathi,AP/ECE and vote of thanks delivered by Ms.P.Malathy, AP/ECE Department.

ANNUAL REPORT (2019 -2020)

ABOUT COLLEGE

It is indeed a great honor and a privilege bestowed on me, to present a brief report on our academic activities of our institution on this occasion.

A.R. Engineering College was established by our Honourable Chairman Mr.G.Mahadevan, in the year 2008. The Institution started functioning with four under graduate courses in Computer Science & Engineering, Electrical & Electronics Engineering, Electronics & Communication Engineering and Information Technology. In the year 2009-10, we started Mechanical Engineering course and In the next academic year, we introduced Civil Engineering course.

INFRA STRUCTURE

The college is spread over an area of 15 acres with a total built up area of 13,389 m^2 and state-of-art laboratories. Every year the library is strengthened by adding required number of books, National and International journals.

ACADEMIC ACHIEVEMENTS

Let's have a quick look on some of the achievements of our faculty members in the last academic year.

DEPARTMENT OF CIVIL ENGINEERING:

Civil Engineering is field of engineering sciences, related to Design, Construction and Maintenance of buildings, dams, bridges, tunnels, highways and other structures by the use of Physical Laws, Mathematical Equations and Theories of Mechanics. Civil Engineers utilize the available resources (expertise, materials, manpower) to complete the project in the given time span keeping in view the time, expenditure, environmental issues and physical hazards of the project.

STAFF DETAILS:

Ms.D.Thulabamani AP/CIVIL has attended 7 days faculty development program in the topic of Advanced Transparent Ceramic Materials for Defence Applications.

Ms.K.Pavithra AP/CIVIL has attended faculty development program in the topic of IEEE Mini Poco-2019 Program.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Computer Science and engineering Department has been running successfully 8 years and has also been accredited by AICTE, New Delhi. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty those are specialized in areas like Cryptography and Network Security, Multimedia Communications, Wireless Networking, Computing, Data Mining etc..

Our Department provides high quality learning environment, in terms of inspiring teachers, State-of-the-art facilities, sharing experience, widening the knowledge horizon, interacting with experts from academic and industry and facilitating the student in the process of growth in the computer field. The Department aims to inculcate profound knowledge and skill in the areas of Computer Hardware and Software Developments. We have excellent lab facilities. Students are always given the best opportunities for independent thinking, which will help them in utilizing their potential creativity. The Department has totally 3 Hi-tech Laboratories housing everything from P-IV Systems with 1GB RAM to Computer based on Intel's latest Core 2 duo Processor with 2 GB RAM. The Client machines are connected to various servers from HCL & HP powered by Intel's latest Xeon Processor. Some of the other facilities available are internet through a 10 Mbps leased line and industry standard licensed software.

STAFF DETAILS:

Mr.K.Muthukumaran AP/CSE has attended 1 day workshop on XII National Cyber Defence Summit 19.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING:

Global excellence in teaching, research and technology development is the main concern of the department. It has renowned as well as young and dynamic personalities as faculties and involved in providing quality education at undergraduate (UG) level.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING:

Electrical and Electronics Engineering was established in the year 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. The Electrical and Electronics Engineering programme is duly approved by the AICTE and affiliated to ANNA University, Chennai. The Electrical and Electronics Engineering department strongly believes in working towards a goal which is not merely theoretical in content but practical in approach. The laboratories are highly modernized to reflect the rapidly changing trends in technology. The department has excellent infrastructure and is currently served by a team of well qualified, experienced and dedicated faculties whose specialization spans around major areas in Electrical and Electronics Engineering. The faculty and students have publications in the reputed National and International Journals

STAFF DETAILS:

Mr.V.Kamalakannan AP/EEE has presented 4 papers in National Conference and 2 papers in International Conference.

DEPARTMENT OF MECHANICAL ENGINEERING:

Mechanical Engineering recently started in the year 2009 and offer B.E Mechanical engineering .There are nine Laboratory namely CAD CAM Lab, Thermal engg lab ,Heat transfer Lab, Manufacturing Technology Lab ,Fluid Mechanics and Machinery Lab, General Workshop, Metrology and measurement Lab, Dynamics Lab, Strength of materials lab, Mechatronics lab, are well established with in short period of time.

The Department has a team of dedicated, well qualified and experienced faculty which includes three professors To provide in depth knowledge and training in the field of Mechanical engineering covering energy, thermal,

design, manufacturing, industrial management, and to expose to the latest research, development and techniques so as to cater to the growing needs of the Industries and to mould the students. The department offers an under graduate program B.E.(Mechanical Engineering) . The thermal engineering program has its versatile opportunities to work in areas of thermal design, power plants, oil and gas company, HVAC, thermal management of buildings and in multidisciplinary area, thermal management of electronics, thermal engineers decides the length and breadth of electronic component sizes.

STAFF DETAILS:

Mr.K.Sakthivel, AP/Mech, has attended National level Seminar on Matlab Programming.

Mr.D.Manikandan, AP/Mech, has published 1 book titled as "**Automobile Engineering"** published by Shagara publication, Chennai.

DEPARTMENT OF SCIENCE & HUMANITIES:

Mr.S.Chandra Sekar AP/Physics He has Webinar Series-Scholars who rocked the world "Father of Modern Physics Galileo"

Mr.G.Vengadasalapathi AP/Mathematics he has attended 2 faculty development programs.

For the betterment of faculty around 82 faculty members were participate in FDP organized by varoius institute of repute and 08 programs were organized internally for the betterment of technical teaching staff and non teaching staff.Technology has to be constantly upgraded to keep pace with the desired imporements in academic quality.

Once again on behalf of the management, myself and faculty members I wish you all a successful and bright future ahead.

Thanking you

Details of Participants:	External participants from various institution like Academicians, Researchers, Industry and faculty members of AREC			
Profile of the Chief Guest(s)		**DAY-1 (01.04.2019)**	**DAY-2 (02.04.2019)**	**DAY-3 (03.04.2019)**
	Name of the Guest Speaker	Dr. T. SRINIVASAN	Dr. P.BALAGURUSAMY	Dr. T.K. RAJAGOPAL
	Organization	CSE/ V.R.S. COLLEGE OF ENGINEERING & TECHNOLOGY	CSE/ ANNAI RANI COLLEGE OF ENGINEERING	CSE/ C.K. COLLEGE OF ENGINEERING
Write-up on Event	The FDP started with 24 participants from different domain on 01.04.2019at 10.00 am with welcome address and introduction of chief guest by **Dr.K.VENKATARAMANA KTP, HoD/CSE,AREC.** The first day 01.04.2019 session was handled by the guest speaker **Dr. T. SRINIVASAN HoD/Professor/CSE/ V.R.S. COLLEGE OF ENGINEERING & TECHNOLOGY**. The speaker elaborated in detail aboutvarious mechanism used in ANDROID. In the discussion time with the participants, he answered all the questions patiently up to the participant's satisfaction. The second day 02.04.2019 session was handled by the guest speaker **Dr. P.BALAGURUSAMY Associate Professor, CSE/ ANNAI RANI COLLEGE OF ENGINEERING.** He explained in detail about the various applications. During the discussion session, he meticulously elaborated in detail for the participants questions. The third day 03.04.2019 session was handled by the guest speaker**Dr. T.K. RAJAGOPAL, Professor,CSE/ C.K. COLLEGE OF ENGINEERING**. He explained in detail about the ANDROID. During the discussion session, he elaborated in detail for the participants questions. **Mrs.P.SUGANYA, AP/CSE., AP/ECE,AREC,**proposed the vote of thanks to the chief guest, participants and organizers.

Feedback from the participants

It was good to get more information in the field of IT

Excellent by Event organizing peoples

Today's topic on collaborative Android and MangoDB is very interesting

Nice and informative session

ANNUAL REPORT (2018 -2019)

ABOUT COLLEGE

It is indeed a great honor and a privilege bestowed on me, to present a brief report on our academic activities of our institution on this occasion.

A.R. Engineering College was established by our Honourable Chairman Mr.G.Mahadevan, in the year 2008 with an annual intake of 240. The Institution started functioning with four under graduate courses in Computer Science & Engineering, Electrical & Electronics Engineering, Electronics & Communication Engineering and Information Technology. In the year 2009-10, we started Mechanical Engineering course with an intake of 60. In the next academic year, we introduced Civil Engineering course. In 2011-12, the intake of Mechanical Engineering increased to 120. The intake of Electronics & Communication Engineering has been increased to 120 and we have got an approval from AICTE, New Delhi for increasing the annual intake from 240 to 420 in the academic year 2012-13. Now, the institution is 9 years old and offers 5 under graduate courses.

INFRA STRUCTURE

The college is spread over an area of 15 acres with a total built up area of 13,389 m^2 and state-of-art laboratories. Every year the library is strengthened by adding required number of books, National and International journals. We have a computerized library with text books and reference books. We have boys' hostel in the campus with a built up area of 561.44 m^2 to accommodate 100 inmates. The institution is also having a girls' hostel to accommodate 100 inmates.

ACADEMIC ACHIEVEMENTS

Let's have a quick look on some of the achievements of our faculty members in the last academic year.

DEPARTMENT OF CIVIL ENGINEERING:

Civil Engineering is field of engineering sciences, related to Design, Construction and Maintenance of buildings, dams, bridges, tunnels, highways and other structures by the use of Physical Laws, Mathematical Equations and Theories of Mechanics. Civil Engineers utilize the available resources (expertise, materials, manpower) to complete the project in the given time span

keeping in view the time, expenditure, environmental issues and physical hazards of the project.

STAFF DETAILS:

Mr.R.Saranraj AP/CIVIL has attended faculty development program in the topic of structural dynamics.

Ms.K.Pavithra AP/CIVIL has attended faculty development program in the topic of Design of steel structures.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Computer Science and engineering Department has been running successfully and has also been accredited by AICTE, New Delhi. Over the past few years, the department has acquired national and international importance. This has been achieved by the collective and responsive effort of the faculty, the supporting staff and the students. The department is well equipped with excellent computing facilities, and has highly qualified faculty those are specialized in areas like Cryptography and Network Security, Multimedia Communications, Wireless Networking, Computing, Data Mining etc..

Our Department provides high quality learning environment, in terms of inspiring teachers, State-of-the-art facilities, sharing experience, widening the knowledge horizon, interacting with experts from academic and industry and facilitating the student in the process of growth in the computer field. The Department aims to inculcate profound knowledge and skill in the areas of Computer Hardware and Software Developments. We have excellent lab facilities. Students are always given the best opportunities for independent thinking, which will help them in utilizing their potential creativity. The Department has totally 3 Hi-tech Laboratories housing everything from P-IV Systems with 1GB RAM to Computer based on Intel's latest Core 2 duo Processor with 2 GB RAM. The Client machines are connected to various servers from HCL & HP powered by Intel's latest Xeon Processor. Some of the other facilities available are internet through a 10 Mbps leased line and industry standard licensed software.

STAFF DETAILS:

Mrs.S.Amutha (AP/CSE) She has attended 3 workshop on "VM ware" organized by ICT Academy .

Mrs.P.Suganya AP/CSE she has attended 7 days faculty development program on computer graphics at anna university- villupuram and also attended 1 day

Ms.M.subathradevi AP/CSE has attended 1 day workshop on "grid & cloud computing" at AKT Engg College- Kallakurichi.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING:

Global excellence in teaching, research and technology development is the main concern of the department. It has renowned as well as young and dynamic personalities as faculties and involved in providing quality education at undergraduate (UG) level.

STAFF DETAILS:

Mr.P.BharathAP/ECE has presented 2 papers in International Conference and He has published 1 Journal and he attended 3 workshops.

Ms.P.Malathi AP/ECE has presented a paper in 1 International Conferences.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING:

Electrical and Electronics Engineering was established in the year 2008 with the approval of AICTE, is set in an open, student friendly atmosphere. The Electrical and Electronics Engineering programme is duly approved by the AICTE and affiliated to ANNA University, Chennai. The Electrical and Electronics Engineering department strongly believes in working towards a goal which is not merely theoretical in content but practical in approach. The laboratories are highly modernized to reflect the rapidly changing trends in technology. The department has excellent infrastructure and is currently served by a team of well qualified, experienced and dedicated faculties whose specialization spans around major areas in Electrical and Electronics Engineering. The faculty and students have publications in the reputed National and International Journals

STAFF DETAILS:

Mr.V.Tamildurai AP/EEE he has presented 4 papers in National Conference and 1 international conference and He has published 1 International Journal.

Mr.V.Kamalakannan AP/EEE has presented 4 papers in National Conference and 2 papers in International Conference.

DEPARTMENT OF MECHANICAL ENGINEERING:

Mechanical Engineering recently started in the year 2009 and offer B.E Mechanical engineering .There are nine Laboratory namely CAD CAM Lab, Thermal engg lab ,Heat transfer Lab, Manufacturing Technology Lab ,Fluid Mechanics and Machinery Lab, General Workshop, Metrology and measurement Lab, Dynamics Lab, Strength of materials lab, Mechatronics lab, are well established with in short period of time.

The Department has a team of dedicated, well qualified and experienced faculty which includes three professors To provide in depth knowledge and training in the field of Mechanical engineering covering energy, thermal, design, manufacturing, industrial management, and to expose to the latest research, development and techniques so as to cater to the growing needs of the Industries and to mould the students. The department offers an under graduate program B.E.(Mechanical Engineering) . The thermal engineering program has its versatile opportunities to work in areas of thermal design, power plants, oil and gas company, HVAC, thermal management of buildings and in multidisciplinary area, thermal management of electronics, thermal engineers decides the length and breadth of electronic component sizes.

STAFF DETAILS:

Mr.R.Jayakumar, AP/Mech, has published 1 book titled as **"Process planning & control"** published by Shagara publication, Chennai and attended 3 national conferences.

Mr.D.Sakthivel, AP/Mech, has attended 2 national conferences.

Mr.S.Anandhakumar, AP/Mech, has published 1 book titled as **"Manufacturing Technology - II"** published by Shagara publication, Chennai.
